 - ii. "They will also select men who will constantly pass through the land, burying those who were passing through, those left on the surface of the ground, **in order to cleanse it**. At the end of seven months they will conduct a search. ¹⁵As those who pass through the land pass through and anyone sees a human bone, then he will ^a**set up a marker by it until the burial detail has buried it in the Valley of ^bHamon-gog**. ¹⁶And even the name of the city will be Hamonah. **So they will cleanse the land.**" – Ezekiel 39:14-16
 - iii. **Commentary on Ezekiel 39:14-16** - According to verse 14, the Israeli government will hire full-time professionals (men of continual employment) to oversee the burial and decontamination work. This sounds like the type of work needed after nuclear war -- or biological or chemical warfare. If it was a supernatural meteorite shower, the rocks would fall and the corpses would be buried in rubble. Then it would just take a few weeks of work with bulldozers (and vultures) to deal with the mess. Instead, this cleanup is very odd. Passersby don't just bury what they find; they erect markers and let the professionals carry the stuff away to a designated waste area. Sounds like the remains will be radioactive. Or toxic. - c. **Misconceptions on The Book Of Revelation ...**
 1. It is **NOT** the Book of Revelations (no "s" on the end of Revelation)
 2. It is **NOT** the Revelation **OF** John, it is the Revelation **TO** John of the Revelation **OF** Jesus
 3. The Book of Revelation is **NOT** too difficult or impossible to understand. **Understanding is 'spiritually discerned'** ("But the natural man does not receive the things of the Spirit of God, for they are foolishness to him; nor can he know them, because they are spiritually discerned". – 1 Corinthians 2:14) ... and Revelation is the only Book in the Bible that promises to bless us if we read & keep the things written in it! (that last sentence is definitely not a misconception!)
