II. Some additional info on how large the New Jerusalem measures; translation & measurements

- i. "... 12,000 stadia in length, and as wide and high as it is long." (NIV, ESV, Berean, NASB, Christian Standard, Holman)
- ii. "... 12,000 furlongs: the length, breadth and height thereof are equal" (ASV, KJV, NKJV)
- iii. "... its length and width and height were each 1,400 miles." (NLV, Amplified)
- iv. "1,500 miles" (NASB 1995, NASB 1977)
- b. *twelve thousand furlongs* The measure would be about 1378 English miles, according to the lower computation (Cambridge Bible Commentary)
- c. *Stadia or Stadion:* a measure of length comprising 600 Greek feet, or 625 Roman feet (607 US feet), or 125 Roman paces, hence, one-eighth of a Roman mile. So 12,000 x 607 feet = 1,400 miles
- d. *1,500 Miles:* From the west coast to the east coast of the United States, it is approximately 3,000 miles across.
- e. Either way the New Jerusalem is REALLY, REALLY BIG!

III. Dr. Missler discusses the dimensionality of the New Jerusalem ... & wonders is it not bound by our 3 dimensions?

- For the record, I take a slightly more 'literal' reading of Revelation than Dr. Missler, but take great solace and peace that regardless, my home is with Jesus!
